

MAKERERE UNIVERSITY,
SCHOOL OF PSYCHOLOGY,
P.O BOX 7062,
KAMPALA.
6th - JUNE - 2014.

To the dear family of Mr and Mrs Van Dorp. How are you over there? This is to extend my sincere appreciation to you for your support and assistance in my education. Am Nakimuli Joyce, am an orphan and I was born in the family of Mr and Mrs LUBWAMA PATRICK but I lost my mother in 2007 when I was 14 years old. I have 3 sisters and 2 brothers of which am the first born. My dad is still alive and lives in the village, he has no job but struggles to live. With the help of pastor KAGGWA EDWARD I managed to complete my form six (S.6). Now I thank God that with his help again I managed to get your support and I joined Makerere University. Am happy that apart from all the pain, sufferings and poverty that we lived in, I managed to study with pastor's help because studying was always my dream. Life at campus (Makerere) is so nice and am working hard to succeed to help and take care of my sisters and brothers since am the first born. At university am pursuing a bachelor degree of human mental and community psychology and now am done with my first year and second year will start soon. After my degree I will be working and help people who are mentally disturbed and wish to establish an orphanage to help children that lack school fees, parental care and live in poverty because I know how it feels to live in such situations. Am too grateful that I have your support and assistance, I pray that God gives you long life and enlarge the work of your hands, I feel so special to have you and I wish one day I will be able to meet you and express my happiness. Thank you so much.

Yours faithfully

Nakimuli Joyce
